

Wheelbarrows

WCS6

6 cu. ft. Single Wheel

WCD8

8 cu. ft. Dual Wheel

WCD10

10 cu. ft. Dual Wheel

Structural steel channel undercarriage will stand up to the most demanding job site work. Oversized 60" American Hardwood handles enable you to lift the heaviest of loads. Brentwood's UV stabilized polyethylene pan is extremely rugged, easy to clean, and stays looking good, job after job. Tire options: standard 1 wheel 6" wide tire; 2 wheel stud tire. Provided with complimentary handle grips.

WLS6

6 cu. ft. Single Wheel

WLD8

8 cu. ft. Dual Wheel

WLD10

10 cu. ft. Dual Wheel

Cold rolled steel chassis resists corrosion and holds up to wear and tear. 60" North American Hardwood handles resist bending or breaking. UV stabilized polyethylene pan reduces scratching, denting, fading and never rusts. 6" wide oversized turf tread pneumatic tire is easier to handle in stones, mulch, and soft ground.
